

Dear Sirs,

I believe your tool is made for the old waterpump seal for BMW K-series.

The new mechanical seal must have support on the wider base as well on the narrower to successfully be pressed into place.

Your tool with new seal

New seal - Old seal

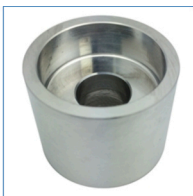

The BMW tool for new seal

The BMW coolant seal installation mandrel.
Outer diameter 40mm
Step diameter 28mm
Inner diameter 12mm
Step depth 8mm

Third party tool
